- + Services from the Official Sites

【 Introduction 】

The Agency Against Corruption (AAC) of MOJ integrates the spirit of openness and transparency with past experience operating the "Government Procurement Integrity Platform", and combines the promotion of the trial version of the "Integrity Platform for Enterprise Services" by various competent authorities to provide distinctive consultations on the issue of "unlawful profit seeking and convenience for public" that wildly concerns enterprises. Meanwhile, AAC assists enterprises in strengthening integrity and legal compliance to achieve the goals of streamlining administration processes and providing convenience for the public, implementing enterprise integrity, facilitating public-private cooperation and thus bring about sustainable development, in order to create a clean and competent investment environment which is more transparent, efficient and reassuring, to ultimately achieving sustainable development for both Taiwan and the enterprises within.
