Information Management**

About InnoServe Awards

Entering 28th year, the International ICT Innovative Services Awards (InnoServe Awards) is an annual ICT application competition held for university and college students. Every year, more than 100,000 professors and students from over a hundred universities and colleges from Taiwan and worldwide participate in the contest. InnoServe is the largest and the most significant contest of its kind in Taiwan which is organized by the Chinese Society for Information Management, Ministry of Digital Affairs), Computer Center of Ministry of Education, and the Taipei Computer Association expanded the scale of the contest to become the largest and the most significant contest of its kind in Taiwan.

Objectives:

- Provide a platform for students to present their information management projects as part of their graduation requirements.
- Promoting academic-industry collaboration by integrating academic training and practical experience.
