# Taiwan's High Schools Look for Partnership

Sister school partnership makes learning foreign languages and culture a fun and enlightening experience. Students will be immersed in the diverse Taiwanese culture and lifestyle while being engaged in authentic experiences to aid their Mandarin learning.

In line with the goal to develop Taiwan into a bilingual nation by 2030, we are now seeking expressions of interest from US schools in finding them a perfect exchange partner in Taiwan.

Embarking on an exchange program will assist your students in:

- **Improving their language and communicative skills**
- **Becoming more knowledgeable and understanding as a global citizen**
- **Making authentic connections with the locals**
- **Building better confidence in communicating in Mandarin**
