“Tour de Formosa” will take the participants on a cycling tour of Taiwan. To mimic the experience of touring Taiwan, participants will stop at 4 stations that represent four culturally significant landmarks around the island. At each station, participants will learn about the landscapes and culture through a small activity and get a stamp on their “travel booklet”. The program will end with a luncheon that celebrates the taste of Taiwan at the Ferguson International Center. The cycling portion of the event may be cancelled in the event of inclement weather. Participants shall be notified via email by April 15 at the latest of such cancellation and will be informed of alternative event information.
