

# WHAT ARE SDGs?

The United Nations adopted the Sustainable Development Goals (SDGs) in 2015 as a universal call to action to end poverty, protect the planet, and ensure peace and prosperity for all by 2030.

Countries have committed to prioritize progress for the most disadvantaged. The SDGs aim to end poverty, hunger, AIDS, and gender inequality.

Every society's creativity, know-how, technology, and financial resources are necessary to achieve the SDGs.

# ABOUT THE CAMP

## *Innovation*

Innovation and creativity never die. Our educated faculty members will dedicate themselves to encouraging and cultivating future leaders to keep improving themselves as well as their ideas and plans for the 21st century. Participants at NTHU Summer Camp 2022 must define, develop, and evaluate intercultural concepts and ideas.

## *Critical Thinking*

Critical thinking not only helps solve problems but also helps make clear and logical decisions. In addition to problem solving, critical thinking assists in decision making. Everybody in the 21st century needs to learn critical thinking. We want to help our future leaders by guiding them through the world's social problems.

## *Immersed and Inspired Young Generations*

We hope to inspire future generations to keep striving for better. NTHU Summer Camp 2022 aims to create a community of diverse future leaders from all over the world. Learning something new is never easy, but with new bright friends and our beloved intelligent faculty staff, we are all eager to grow together.
